Bag Material	Heavy-duty nylon

Our light-weight SSP7950 All-Aluminum Speaker Stand Pack comes with everything needed to support two speakers on individual stands. These light-weight stands feature versatile reversible poles that support all standard speaker cabinet mounting sockets and their height adjusts to accommodate a variety of applications. Heavy-duty construction, braced bases, and nonslip feet work together to deliver exceptional stability and load balance even on irregular surfaces. The durable black finish preserves the professional appearance of any space. For convenient storage and ergonomic transportation, the tripod bases fold flat and all the components fit into an included carrying bag with a shoulder strap and top handles.
